The easy way to change pads in an instant

A new range of double-sided Buffing Pads that, when used with new Quick Connect Adaptor technology and with 3M™ Compounds and Polishes, offers an unparalleled refinish rectification system.

- Long lasting double-sided buffing pads
- Easy, fast changeover
- One connector fits all
- Perfect balance

3M

3M™ Perfect-it™ III Quick Connect System

Change double sided buffing pads in an instant!

The patented Quick Connect Adaptor from 3M, designed to be used with double sided buffing pads, allows you to change pads on your rotary polisher in an instant. Easy pad changes and durable adapter construction means worry-free paint rectification when used with the market leading range of Perfect-it™ III Compounds and Polishes.

The 3M™ Quick Connect Adapter is shown here in an unlocked position. When buffing at sharp angles or when applying pressure, the new adapter holds the pad securely and only releases the pad when the adapter sleeve is pulled back.

The Quick Connect Adapter from 3M has a M14 thread to fit rotary polishers.

Pad Construction

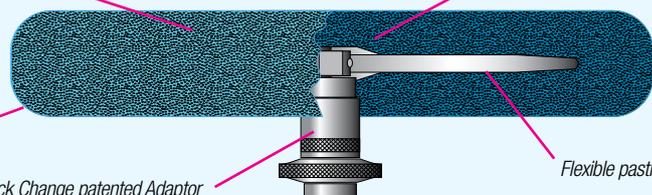

High performance foam

Rounded edge

Unique 3M™ Quick Change patented Adaptor

Raised edge on plate protects panel from contact with adaptor

Flexible pastic plate bonded to foam

New Perfect-it™ III range of 150mm, 216mm and 219mm double-sided buffing and polishing pads
